DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-8, 11-17, 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 recites a pivotal arm with a channel, however it depends from claim 1 which recites a slotted arm portion, thus appearing to reclaim the element.

The same is true for claim 7, wherein a pin is claimed, but is already claimed in claim 1 as a pin assembly.

There is no antecedent basis for "said lead screw" in claim 7; "said elongated slots" in claim 8; "said tang", "said lead screw" and "said pin" in claim 11.

Claim 19 appears to be a method of making or assembling the device and not a method of applying torque.

3. Normally a claim which fails to comply with the first and/or second paragraph of § 112 will not be analyzed as to whether it is patentable over the prior art since to do so would of necessity require speculation with regard to the metes and bounds of the claimed subject matter, **In re Steele**, 308 F.2d 859, 862-63, 134 USPQ 292, (CCPA 1962) and **In re Wilson**, 424 F.2d 1382, 1385, 496 USPQ 494, 496 (CCPA 1970).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

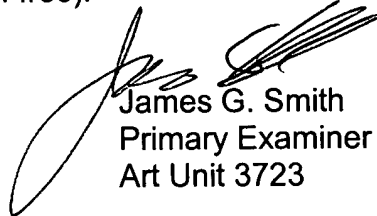

5. Claim 18 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Goldschmidt as the reference shows applying torque to a pipe by using a screw to counter rotate two attached sliding jaw wrenches.

Allowable Subject Matter

6. Claims 1-5, 9 and 10 are allowed.
7. The cited art is merely made of record at this time.
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James G. Smith whose telephone number is 703-308-1746. The examiner can normally be reached on M-Th (7:05- 4:35) Fri. off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph J. Hail, III can be reached on 703-308-2687. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
